SunGard Delivers Trading Connectivity to the Ukrainian Exchange

London, UK - Tuesday 15th December – The [Ukrainian Exchange](#) has certified SunGard's [GL Stream](#) gateway software for connectivity to its markets. SunGard can now deliver market data and trading access to the exchange for both local and international brokers.

Oleg Tkachenko, chief executive officer for the Ukrainian Exchange, said, "Electronic trading is growing among our 120-plus members and their clients, and direct market access trades can be entered directly by members' clients. SunGard's GL Stream gateway software and network connectivity can help to develop this business internationally."

Yassine Brahim, president of SunGard's global trading business, commented: "Facilitating electronic trading in countries where the financial communities are enhancing their IT infrastructures is a key part of SunGard's trading strategy. SunGard looks forward to working with local and international brokers who are growing their businesses on the Ukrainian Exchange."

About Ukrainian Exchange

The Ukrainian Exchange went live on March 26th, 2009 and has been strengthening its technology leadership in launching order-driven trading, DMA, online index calculation, CCP and repo.

The Ukrainian Exchange organizes trading on securities (shares, corporate bonds, municipal bonds and securities on mutual investments funds). It also allows connectivity with DMA systems to provide access to the market for individual investors and algorithmic trading. 140 firms are listed on the Ukrainian Exchange. In November 2009, over Hryvnia 580 millions (€48 millions) were traded on the exchange.
